Information Administration
U.S. Department of Commerce,
Attn: Broadband Opportunity
Council
1401 Constitution Ave. NW
Room 4626
Washington, D.C. 20230

Gentlemen,

I am requesting that you encourage (and insist) that our community receive Broadband for our computers. Some of our neighbors do have it within a mile of us, but we do not. We have been requesting this service for over two years, but the only answer we get is "maybe someday". Well, we are tired of waiting.

Our kids and grand kids cannot do their homework satisfactorily when they visit for an extended period of time. We cannot access web sites without it taking hours, and most of the time our server cuts us off in the middle of a download! Shopping is so complicated since there are no stores of any consequence near us. Please, please, please, encourage the powers that be to provide the Broadband we truly need for our convenience.

Sincerely,

David & Marilyn Brenner
